

Thursday 7:00 pm

Fairview Lanes

Lanes 13 - 20

Important Messages

Welcome back, everyone!!!

Note: The handicap has been changed to better allow teams with lower averages to compete. It is now 90% of 140. That means you take the difference between your average and 140 and multiply by .90 to determine handicap. If your average is 140 or above, then your handicap is zero. I know it's confusing. Feel free to ask any questions.

Below you will see your teams ranked in order of Points Won, based on a 5-point system.

Game 1: 2 points

Game 2: 2 points

Total Score: 1 point

(see reverse for a more in-depth explanation)

Your standings are available online at fairviewlanes.com/standings!

Important Messages**Team Rankings Explained:**

When you bowl against another team, your individual game scores are added together for Game 1, handicap is added in, and whichever team has the highest score for that game wins 2 points. The same for Game 2. Then the total score for your team for both games is compared to the other team's total and the highest total score is awarded 1 point.

If you are tied for points with another team, then rank is determined by Total Pins Knocked Down + Handicap (see far right column on front page).
