**Important Messages**

Note: The league currently has an odd number of teams. Thus, each week one team will bowl against the BYE TEAM. Basically, you are competing against yourselves. To win game points and total points, your team as a whole must bowl within 40 pins of your team average (the sum of the averages of the bowlers that night) per game, and 120 pins of the team average across all three games for total points.

Questions? Just ask.
